Strive Physical Therapy

Mullica Hill, NJ/Philadelphia, PA

Physical Therapy Aide

Sept. 2021 - Present Day

- Currently, working as the full time Physical Therapist Aide. I have been working, observing and learning side by side with various Doctors of Physical Therapy for over 3000 hours. I work in a team based environment, assisting the Doctors by keeping the flow of the clinic; as patients come in for their visits I make sure that their equipment is already at their table and that everything is clean and adequate prior to starting their visit. When the clinic is busy and the Doctors are double or triple booked with patients, I at times step in with a more hands on approach and help patients complete their exercises and/or stretches.
- Actively participate in assisting in different tests such as the Hop Test, Crane Scale Testing and a voluntary screen testing for a local high school baseball team.

Manco & Manco Pizza

Ocean City, NJ

Pizza Delivery Driver and Pizza Maker

May 2017- Present Day

- Worked as a pizza delivery driver, then was a manager for the delivery department during my college summer breaks and now currently making pizza down the shore and at Citizens Bank Park. This has taught me to multitask efficiently and how to adapt on the fly due to the vast popularity of the pizza and the company name.
